

## Clondalkin Localise Visit to Peamount Hospital

The members of Clondalkin Localise visited the St. Mary's Unit in Peamount Hospital to bring some Easter cheer to the long term patients of the ward. In preparation for the visit, the group had card making workshops, prepared Easter Eggs and hand painted mugs for all the patients.

On the day, they arrived in their brand new "localise hoodies" with Easter baskets full of chocolate eggs, cards and hand painted mugs.

The young people also organised some great entertainment for all the patients in the unit; some members brought their guitars and played songs for the audience, others sang lovely tunes and there was

even a spot of Irish Dancing!

The gifts went down a treat and everybody had a great time. The group organises these visits twice a year, during Easter and Christmas, and everyone gets involved with this Clondalkin Caring in their Community event. Well done and congratulations to all the young members of the group and their adult leaders!
